MEMORANDUM FOR: Executive Secretary, NFIB/NFIC
Walter Elder

FROM : Chief, DDI/Planning and Management Staff

25X1

SUBJECT : DDI Response to Proposed Directive on Services
of Common Concern

1. I have reviewed your draft of the proposed directive and have solicited comments from appropriate managers in the DDI. The Office of Central Reference has responded with some helpful suggestions and Clarus Rice's memo is attached.

2. Your overall approach to resolving the DCID-NSCID issue sounds appropriate to me. If I can be of further assistance, please let me know.

2 JUL 1982

MEMORANDUM FOR: Chief, Planning Group
Planning and Management Staff/DDI

FROM : Clarus W. Rice
Director of Central Reference

SUBJECT : Proposed Directive on Services of Common Concern

REFERENCE : Memorandum from Executive Secretary, NFIB/NFIC to
Executive Director Dated 24 June 1982, Same Subject

1. OCR believes that the following changes should be made in the proposed directive:

a. In Paragraph 3f, insert the word "administering" to make the section read "... Office of Central Reference, for administering the acquisition of open source maps and foreign publications."

b. Add a new section making the Department of State responsible for the overseas procurement of maps and publications. This responsibility is just as important as the CIA responsibility for coordinating or directing the publications and map procurement.

c. Add a section or sections on the biographic program. This is a service of common concern operated by State, CIA, and DOD that is equal in importance to many of the other programs listed. The section on the CIA part of the program should read: by the Central Intelligence Agency for guiding collection, maintaining data, providing data and producing intelligence on foreign political, economic, scientific, technical, social and cultural personalities. Sections for the State collection responsibility and the DOD collection and production responsibilities should also be added.

2. OCR has no strong preferences as to whether this should be a NSCID or a DCID. A NSCID might give us slightly stronger leverage in trying to get the State Department to fulfill its collection responsibilities for publications, maps and biographic data.
